

PROVIDING EQUIPMENT AND SERVICES TO GOVERNMENT AGENCIES SINCE 1976

CME is proud to provide expertise and services to VA, Military, and other government facilities that support our troops and veterans across our great country. We hold several key government contracts including DoD ECAT, DoD DAPA, GSA, and VA FSS, which are accessible to DoD, VA, Indian Health, and other federal facilities for simplified acquisition. We are also a contracted supplier on the Sourcwell Medical Equipment contract, which many SLED (state, local & education) facilities utilize for their equipment needs. With the implementation of the "Rule of 2" for a VA transaction, CME partners with select SDVOSB companies to provide quoting options for your purchases above the micro-purchase threshold and Open Market items. We can also assist you directly with any of your credit card purchases.

GOVERNMENT SALES CHANNELS:

FEDERAL – VA, Military, Indian Health Services, and other Federal Agencies

RESELLER PARTNERS – SDVOSB Partnering, Indian Health Partnering and other resellers

IO&T – Initial Outfitting & Transition

SLED – State, Local & Education
